eSafety Policy

Including Online Safety Acceptable Use Agreements

Version 003 date: May 2018

Adapted for The Reddings Primary and Nursery School October 2018

by Matthew Battersby

HfL review date: March 2020

School Review date: October 2020

HfL has provided this Model Online Safety Policy, including a range of Acceptable Use Agreements and additional guidance that you may wish to use in your school or setting. Please note that this is a 'model' policy and can be adapted to meet the needs of your school/ setting. All adaptations should be risk assessed.

Contents

1. Introduction

The Reddings Primary and Nursery School recognises that internet, mobile and digital technologies provide a good opportunity for children and young people to learn, socialise and play, provided they are safe. The digital world is an amazing place, but with few rules. It is vast and fast moving and young people's future economic success may be partly dependent on their online skills and reputation. We are, therefore, committed to ensuring that **all** pupils, staff and governors will be able to use internet, mobile and digital technologies safely. This is part of our safeguarding responsibility. Staff are aware that some pupils may require additional support or teaching, including reminders, prompts and further explanation to reinforce their knowledge and understanding of online safety issues.

We are also committed to ensuring that all those who work with children and young people, including their parents/carers, are informed about the ever-changing risks so that they can take an active part in the safeguarding of children.

2. Responsibilities

The headteacher and governors have ultimate responsibility to ensure that appropriate online safety policy and practice is embedded and monitored. **The named eSafety lead in this school is Mr. Matthew Battersby**.
All breaches of this policy must be reported to the eSafety lead.
All breaches of this policy that may have put a child at risk must also be reported to a DSL: Miss T. Prickett (headteacher), Mrs E. Fleet, Mrs. E. Murphy
Organisations that are renting space from the school and are a totally separate organisation should have and follow their own online safety policy and acceptable use agreements. However, if the organisation has any access to the school network and equipment then they must adhere to the school's online safety procedures and acceptable use agreements.

If the organisation is operating in school time or when pupils are on site in the care of the school, then the safeguarding of pupils is paramount and the organisation must adhere to the school's online safety procedures and acceptable use agreements.

3. Scope of policy

The policy applies to:

- pupils
- parents/carers
- teaching and support staff
- school governors
- peripatetic teachers/coaches, supply teachers, student teachers
- visitors

- volunteers
- voluntary, statutory or community organisations using the school's facilities

The school also works with partners and other providers to ensure that pupils who receive part of their education off site or who are on a school trip or residential are safe online.

The school provides online safety information for parents/carers, through the website, in newsletters and at events. It is important that parents/carers understand their key role in supporting their child/ren to behave appropriately and keep themselves safe online.

This policy, supported by its acceptable use agreements, is intended to protect the interests and safety of the whole school community. It is linked to the following other school policies and documents: safeguarding, GDPR, health and safety, CCTV, home–school agreement, behaviour, anti-bullying and SMSC policies.

4. Policy and procedure

The school seeks to ensure that internet, mobile and digital technologies are used effectively, for their intended educational purpose, in ways that will not infringe legal requirements or create unnecessary risk.

The school expects everyone to use internet, mobile and digital technologies responsibly and strictly according to the conditions set out in this policy. This policy also includes expectations on appropriate online behaviour and use of technology outside of school for pupils, parents/carers, staff and governors and all other visitors to the school.

Use of email

Staff and governors should use their school email account (or Governor Hub) for all official communication, to ensure everyone is protected through the traceability of communication. **Under no circumstances should staff contact pupils, parents or conduct any school business using a personal email address.** Pupils may only use school approved accounts on the school system, and only for educational purposes. Where required, parent/carer permission will be obtained for the account to exist. For advice on emailing, sharing personal or confidential information or the need to gain parent permission refer to the policy for GDPR. Emails created or received as part of any school role will be subject to disclosure in response to a request for information under the Freedom of Information Act 2000, as well as a Subject Access Request under GDPR.

Staff, governors and pupils should not open emails or attachments from suspect sources and should report their receipt to the eSafety lead or the IntermIT technician.

Users must not send emails which are offensive, embarrassing or upsetting to anyone (i.e. cyberbullying).

Visiting online sites and downloading

- Staff must preview sites, software and apps before their use in school or before

recommending them to pupils. Before using any online service that requires user accounts to be created or the sharing of any personal data, staff must consult with the Data Protection Officer with details of the site/service. If internet research is set for homework, specific sites will be suggested that have previously been checked by the teacher. All users must observe copyright of materials from electronic sources.

- Staff must only use pre-approved systems if creating blogs, wikis or other online areas in order to communicate with pupils/families.

- When working with pupils searching for images should be done through Google Safe Search (standard through the HICS service), Google Advanced Search or a similar application that provides greater safety than a standard search engine.

Users must not:

Visit internet sites, make, post, download, upload or pass on, material, remarks, proposals or comments that contain or relate to:

- Indecent images of children actually or apparently under the age of 18 or images of child abuse (i.e. images of children, digital or cartoons, involved in sexual activity or posed to be sexually provocative)

- Indecent images of vulnerable people over the age of 18 (i.e. images of vulnerable people, digital or cartoons involved in sexual activity or posed to be sexually provocative)

- Adult material that breaches the Obscene Publications Act in the UK

- Promoting discrimination of any kind in relation to the protected characteristics: gender identity and reassignment, gender/sex, pregnancy and maternity, race, religion, sexual orientation, age and marital status

- Promoting hatred against any individual or group from the protected characteristics above

- Promoting illegal acts including physical or sexual abuse of children or adults, violence, bomb making, drug and alcohol abuse and software piracy

- Any material that may bring the school or any individual within it into disrepute e.g. promotion of violence, gambling, libel and disrespect

Users must not:

- Reveal or publicise confidential or proprietary information. This could be a breach of the GDPR policy.

- Intentionally interfere with the normal operation of the school internet connection, including the propagation of computer viruses

- Transmit unsolicited commercial or advertising material either to other users, or to organisations connected to other networks except where permission has been given to the school

- Use the school's hardware and Wi-Fi facilities for running a private business
- Intimidate, threaten or cause harm to others
- Access or interfere in any way with other users' accounts
- Use software or hardware that has been prohibited by the school

Only a school device may be used to conduct school business outside of school. The only exception would be where a closed, monitorable system has been set up by the school for use on a personal device. There is a school VPN for this purpose.

All breaches of prohibited behaviours detailed above will be investigated, where appropriate, in liaison with the police.

The school recognises that in certain planned curricular activities, access to controversial and/or offensive online content may be beneficial for educational use. In such circumstances, there is an expectation that access is pre-planned, risk assessed and recorded, and permission given by the headteacher and appropriate subject co-ordinator.

Storage of Images

Photographs and videos provide valuable evidence of pupils' achievement and progress in a variety of contexts and can be used to celebrate the work of the school. In line with GDPR, they are published only with the written consent of parents/carers which is secured in the first instance on a child's entry to the school. Records are kept on file and consent can be changed by parents/carers at any time. (See GDPR policy for greater clarification).

Photographs and images of pupils are only stored on the school's agreed secure networks, which may include some cloud based services. Rights of access to stored images are sometimes restricted to approved staff as determined by the headteacher. Unless separately protected, all images are stored on the Staff drive, available only to adults with a log in and employed by the school

Parents/carers should note that there may be some children who are at risk and must not have their image put online and others who do not want their image online. For these reasons parents/carers must follow the school's Acceptable Use Agreement and refrain from taking or posting online photographs of any member of the school community, other than their own child/ren.

Staff and other professionals working with pupils must only use school equipment to record images of pupils whether on or off site. See also the GDPR policy. Permission to use images of all staff who work at the school is sought on induction and a written record is located in the personnel file.

Use of personal mobile devices (including phones)

The school allows staff, including temporary and peripatetic staff, and visitors to use personal mobile phones and devices only in designated areas and never in the

presence of pupils. Under no circumstance does the school allow a member of staff to contact a pupil or parent/carer using their personal device.

Parents/carers may only use personal mobile phones and devices in designated areas unless otherwise informed, e.g. for specific events and activities. Under no circumstance should images be taken at any time on school premises or on off-site school events and activities of anyone other than their own child, unless there is a pre-specified permission from the designated Data Protection Officer. When a parent/carer is on school premises but not in a designated area, their phone/s must be muted and out of sight.

Pupils are allowed to bring mobile phones to school, but must not use them for personal purposes within lesson time. The child must hand their personal device to the office, where it must be switched off. Under no circumstance should pupils use their personal mobile devices/phones to take images of

- any other pupil (unless they and their parents have given agreement in advance)
- any member of staff

The school is not responsible for the loss, damage or theft on school premises of any personal mobile device that is not stored in the designated location:

(i) for children, the school office
(ii) for staff, a personally-secured, keyed, locker. These are shared around the classrooms.

Users bringing personal devices into school must ensure there is no inappropriate or illegal content on the device.

In compliance of the GDPR policy, personal mobiles can only be used to access school emails and data where security has been confirmed to the DPO.

New technological devices

New personal technological devices may offer opportunities for teaching and learning. However, the school must consider educational benefit and carry out risk assessment before use in school is allowed. Parents/carers, pupils and staff should not assume that new technological devices will be allowed in school and should check with the headteacher before they are brought into school.

Reporting incidents, abuse and inappropriate material

There may be occasions in school when either a pupil or an adult receives an offensive, abusive or inappropriate message or accidentally accesses upsetting or abusive material. When such a situation occurs the pupil or adult must report the incident immediately to the first available appropriate member of staff: a DSL, the headteacher or IntermIT technician. Where such an incident may lead to significant harm, safeguarding procedures should be followed. The school takes the reporting of such incidents seriously and where judged necessary, the DSL will refer details to social care or the police.

5. Curriculum

Online safety is embedded within our curriculum. The school provides a comprehensive curriculum for online safety which enables pupils to become informed, safe and responsible. This includes teaching to prevent radicalisation, for which staff provide a narrative to counter extremism.

The curriculum is flexible and can respond to any immediate online safety issues and risks as they emerge.

It is necessary for pupils to develop skills of critical awareness, digital resilience and good online citizenship to enable them to use internet, mobile and digital technologies safely and responsibly. Pupils are taught to recognise the creative, collaborative, cultural, economic and educational opportunities provided by the internet, mobile and digital technologies.
Curriculum work will also include:

- Understanding how to use the internet, mobile and digital technologies in a balanced and appropriate way to avoid negative impact on wellbeing, e.g. regulated screen time and diverse online activity

- Learning how to develop a positive online reputation and enhance future opportunities e.g. in relationships and employment

- Developing critical thinking skills in relation to online content e.g. recognising fake news and extremism, understanding commercial manipulation, maintaining an authentic sense of self that is resilient to online pressure, learning how easy it is to lie online (i.e. users may not be who they say they are and may have ulterior motives)

- Understanding the dangers of giving out personal details online (e.g. full name, address, mobile/home phone numbers, school details, IM/email address) and the importance of maintaining maximum privacy online

- Thinking carefully before placing images online and considering their appropriateness and understanding the importance of gaining consent before posting photographs of others

- Understanding the permanency of all online postings and conversations

- Understanding relevant legislation, including copyright, and the importance of respecting other people's information, reputation and images

- What constitutes cyberbullying, how to avoid it, the impact it has and how to access help.

6. Staff and Governor Training

Staff and governors are trained to fulfil their roles in online safety. The school audits the training needs of all school staff and provides regular training to improve their knowledge and expertise in the safe and appropriate use of internet, mobile

and digital technologies. This training is recorded as part of safeguarding records.

New staff are provided with a copy of the online safety policy and must sign the school's Acceptable Use Agreement as part of their induction and before having contact with pupils.

Any organisation working with children based on the school premises are also provided with a copy of the online safety policy and required to sign the Acceptable Use Agreement (Appendix B).

Peripatetic staff, student teachers and regular visitors are provided with a copy of the online safety policy and are required to sign the Acceptable Use Agreement (Appendix B).

Guidance is provided for occasional visitors, volunteers and parent/carer helpers (Appendix E).

7. Working in Partnership with Parents/Carers

The school works closely with families to help ensure that children can use internet, mobile and digital technologies safely and responsibly both at home and school. It is important that parents/carers understand the crucial role they play in this process. The school seeks to regularly consult and discuss online safety with parents/carers and seeks to promote a wide understanding of the benefits of new technologies and associated risks. The school provides regular updated online safety information through the school website and by other means.

Parents/carers are asked on their child's entry to the school to read, discuss and co-sign with each child the Acceptable Use Agreement. A summary of key parent/carer responsibilities will also be provided and is available in Appendix F. The Acceptable Use Agreement explains the school's expectations and pupil and parent/carer responsibilities. The support of parents/carers is essential to implement the online safety policy effectively and keep all children safe.

8. Records, monitoring and review

The school recognises the need to record online safety incidents and to monitor and review policies and procedures regularly in order to ensure they are effective and that the risks to pupils and staff are minimised.

All breaches of this policy must be reported and all reported incidents will be logged. All staff have the individual responsibility to ensure that incidents have been correctly recorded, acted upon and reported. Online safety incident recording formats are provided in appendices I, J and K.

The school supports pupils and staff who have been affected by a policy breach. Where there is inappropriate or illegal use of internet, mobile and digital technologies, this will be dealt with under the school's behaviour and disciplinary policies as appropriate. Breaches may also lead to criminal or civil proceedings.

9. Appendices of the Online Safety Policy

A. Online Safety Acceptable Use Agreement - Staff, Governors and student teachers (on placement or on staff)

B. Not used

C. Requirements for visitors, volunteers and parent/carer helpers working in the school (working directly with children or otherwise)

Appendix F - Online safety policy guide - Summary of key parent/carer responsibilities

The school provides online safety information for parents/carers, through the website, in newsletters and at events. It is important that parents/carers understand their key role in supporting children to behave appropriately and keep themselves safe online.

The online safety policy, supported by its acceptable use agreements, is intended to protect the interests and safety of the whole school community.

- Parents/carers are required to support their child in understanding and signing the Online Safety Acceptable Use Agreement for pupils.

- Parents/carers may only use personal mobile phones and devices in designated areas of the school unless otherwise informed, e.g. for specific events and activities. Under no circumstance should images be taken at any time on school premises that include anyone other than their own child, unless there is a pre-specified agreement with individuals and parents/carers. When a parent/carer is on school premises but not in a designated area, their phone/s must be switched off and out of sight.

- Parents/carers should not assume that pupils can bring technological devices to school and should always check the school policy.

- All cyberbullying incidents affecting children in the school should be reported immediately. (If the incident involves an indecent image of a child the report must also be made immediately to the police for your own protection.) The school will investigate and respond to all reported cyberbullying incidents, liaising with others where appropriate. No reply should ever be sent to the sender/poster of cyberbullying content. If applicable block the sender and report abuse to the site. Evidence should be retained and shown in school and/or to the police. Evidence should not be forwarded.

- The school may choose to set up social media sites, blogs or have some other online presence in its own name. Parents/carers, however, do not have the right to set up any site, page, chat group or any other online presence that uses the school name or logo in any form.

- Any parent/carer, distressed or concerned about an aspect of school should make immediate contact with a member of staff rather than posting their concerns online. Parents/carers should not share school related information or images online or post material that may bring the school or any individual within it into disrepute. Negative postings about the school would impact on the reputation of the whole school community. Parents/carers are encouraged to report breaches so that we can protect the reputation of the school, staff, pupils and parents/carers.

Please see the full online safety policy in the policies section on the school website.

Appendix G - Guidance on the process for responding to cyberbullying incidents

All cyberbullying incidents should be reported and responded to. Where the perpetrator is a member of the school community the majority of cases can be dealt with through mediation and/or disciplinary processes.

The following procedures are recommended:

- Never reply to the sender/poster of cyberbullying content. If applicable, block the sender.
- Incidents should be reported immediately. Pupils should report to a member of staff (e.g. class teacher, headteacher) and staff members should seek support from their line manager or a senior member of staff.
- The person reporting the cyberbullying should save the evidence and record the time and date. This evidence must not be forwarded but must be available to show at a meeting. Under no circumstances should indecent images of children and young people be printed or forwarded as this is a further criminal act. Staff should not ask to see the evidence of reported indecent images of children or young people but must refer this immediately to the police. Any member of staff being shown such evidence should immediately inform their line manager or the headteacher so that the circumstances can be recorded.
- A senior member of staff will meet with the person who has reported the incident and the target, if different, to listen, reassure and support. All relevant facts will be reviewed and documented.
- A senior member of staff will conduct an investigation.
- Anyone found to have cyberbullied will have attention drawn to the seriousness of their behaviour and if necessary the police will be involved. If the comments are threatening, abusive, sexist, of a sexual nature, constitute a hate crime or are libellous they may well break the law. Online harassment and stalking is also a crime.
- Once evidence has been secured then the person who has cyberbullied will be requested to remove the offending comments/material. Any refusal will lead to an escalation of sanctions.

Appendix H - Guidance for staff on preventing and responding to negative comments on social media

The school should make it clear which, if any, social media platforms are used to communicate with parents/carers. If used correctly, parents can use a school's social media site as a source of reliable information. The online safety policy, especially Appendix F (Online safety policy guide - Summary of key parent/carer responsibilities), clarifies that no other social media platforms should be set up using the school's name or logo.

The school should regularly reinforce with all parties that discussion of school issues on social media platforms, either positive or negative, should not take place as this could bring the school into disrepute and affect families and children. Parents should be encouraged to be good online role models and not post statements written in anger or frustration. Identified routes to raise concerns directly with the school should be used.

If negative comments are posted:

- Collect the facts

  As soon as you become aware of adverse comments relating to the school you need to establish what is being said. It is essential that if you have access to the postings they are secured and retained together with any other evidence. Do not become engaged in responding directly.

  If the allegations against a member of staff or a pupil are of a serious nature, these will need to be formally investigated. This may involve the police and the headteacher will need to follow the school's safeguarding procedures.

  If there is a risk of serious damage to the school reputation or the reputation of individual members of staff, professional legal advice should be sought.

  Adverse comments of any kind are highly demotivating and cause stress and anxiety. It is important that the senior staff reassure and support all staff and/or other affected members of the school community.

- Addressing negative comments and complaints

  Contact the complainants and invite them to a meeting. In the meeting, make sure you have any evidence available.

  The meeting must:

  - Draw attention to the seriousness and impact of the actions/postings;
  - Ask for the offending remarks to be removed;
  - Explore the complainant's grievance;
  - Agree next steps;
  - Clarify the correct complaints procedures.

  If the meeting does not resolve the issue, the parents must be informed that the school will need to take the matter further. This may include:

- Reporting the matter to the social network site if it breaches their rules or breaks the law;

- Reporting the matter to the police if it breaks the law, e.g. if the comments are threatening, abusive, malicious, sexist, of a sexual nature, constitute a hate crime or are libellous they may well break the law. Online harassment and stalking is also a crime.

If inappropriate postings continue or the original material is not removed, a second meeting is advisable to re-iterate the seriousness of the matter.

Appendix I - Online safety incident reporting form

Any member of the school community can raise a concern about an online safety incident. If you have witnessed or experienced an incident, please complete the form below to help us to address the issue. It is important that you provide as much detail as possible. Once completed please hand this report to the eSafety lead.

Name of person reporting incident:				
Signature:				
Date you are completing this form:				
Where did the incident take place:	Inside school?		Outside school?	
Date of incident(s):				
Time of incident(s):				

Who was involved in the incident(s)?	Full names and/or contact details
Children/young people	
Staff member(s)	
Parent(s)/carer(s)	
Other, please specify	

Type of incident(s) (indicate as many as apply)			
Accessing age inappropriate websites, apps and social media		Accessing someone else's account without permission	
Forwarding/spreading chain messages or threatening material		Posting images without permission of all involved	
Online bullying or harassment (cyber bullying)		Posting material that will bring an individual or the school into disrepute	
Racist, sexist, homophobic, religious or other hate material		Online gambling	
Sexting/Child abuse images		Deliberately bypassing security	
Grooming		Hacking or spreading viruses	
Accessing, sharing or creating pornographic images and media		Accessing and/or sharing terrorist material	
Accessing, sharing or creating violent images and media		Drug/bomb making material	
Creating an account in someone else's name to bring them into disrepute		Breaching copyright regulations	
Other breach of acceptable use agreement, please specify			

Full description of the incident	What, when, where, how?
Name all social media involved	Specify: Twitter, Facebook, WhatsApp, Snapchat, Instagram etc
Evidence of the incident	Specify any evidence available but do not attach.

Thank you for completing and submitting this form.

Appendix J - Online safety incident record

Name of person reporting incident:				
Date of report:				
Where did the incident take place:	Inside school?		Outside school?	
Date of incident(s):				
Time of incident(s):				

Who was involved in the incident(s)?	Full names and/or contact details
Children/young person	
Staff member(s)	
Parent(s)/carer(s)	
Other, please specify	

Type of incident(s) (indicate as many as apply)			
Accessing age inappropriate websites, apps and social media		Accessing someone else's account without permission	
Forwarding/spreading chain messages or threatening material		Posting images without permission of all involved	
Online bullying or harassment (cyberbullying)		Posting material that will bring an individual or the school into disrepute	
Racist, sexist, homophobic, religious or other hate material		Online gambling	
Sexting/Child abuse images		Deliberately bypassing security	
Grooming		Hacking or spreading viruses	
Accessing, sharing or creating pornographic images and media		Accessing and/or sharing terrorist material	
Accessing, sharing or creating violent images and media		Drug/bomb making material	
Creating an account in someone else's name to bring them into disrepute		Breaching copyright regulations	
Other breach of Acceptable Use Agreement			
Other, please specify			

Full description of the incident	What, when, where, how?
Name all social media involved	Specify: Twitter, Facebook, WhatsApp, Snapchat, Instagram etc
Evidence of the incident	Specify any evidence provided but do not attach

Immediate action taken following the reported incident:	
Incident reported to online safety Coordinator/DSL/ DSP/Headteacher	
Safeguarding advice sought, please specify	
Referral made to HCC Safeguarding	
Incident reported to police and/or CEOP	
Online safety policy to be reviewed/amended	
Parent(s)/carer(s) informed, please specify	
Incident reported to social networking site	
Other actions e.g. warnings, sanctions, debrief and support	
Response in the wider community e.g. letters, newsletter item, assembly, curriculum delivery	

Brief summary of incident, investigation and outcome (for monitoring purposes)	

Appendix K - Online safety incident log

Summary details of ALL online safety incidents will be recorded on this form by the online safety coordinator or other designated member of staff. This incident log will be monitored at least termly and information reported to SLT and governors.

Date & time	Name of pupil or staff member Indicate target (T) or offender (O)	Nature of incident(s)	Details of incident (including evidence)	Outcome including action taken
