

## Reading at home with your children

At The Reddings, we teach the children the six key skills that they need to enable them to understand and enjoy books effectively. These are represented using the acronym VIPERS:

- Vocabulary
- Inference
- Prediction
- Explanation
- Retrieval
- Sequencing (KS1) / Summarising (KS2)

When hearing your child(ren) read aloud, we recommend asking your children a variety of questions about what they have just read. As such, we have attached lists of questions that you could ask to generate high-quality book-talk at home.
